

# Station Plan 2016-2017: Southsea 24

## What we're going to do to help reduce our local risks

<b>Managing local risk and crewing</b>	<ul style="list-style-type: none"><li>• We will develop flexible crewing routines with our partner station (Southsea) to ensure we are available to respond to emergency calls.</li><li>• We will manage identified risks in the area utilising data to compile SSRIs.</li><li>• Premises requiring Operational Pre Plans and Operational Plans will be identified and plans formulated.</li></ul>
<b>Working with partners</b>	<ul style="list-style-type: none"><li>• We will work with our partners to identify potential risks to the community through completion of environmental visual audits.</li><li>• We will actively promote the My Portsmouth App to the public.</li><li>• We will continue to strengthen our relationship with Cat 1 partner agencies.</li><li>• We will work with partners including Portsmouth Road Safety team to deliver road safety awareness in local schools and colleges.</li></ul>
<b>Vulnerable people</b>	<ul style="list-style-type: none"><li>• We will ensure that all vulnerable people identified as priority one or other referrals are contacted in order to provide a Safe &amp; Well visit.</li><li>• The diversity liaison officers will develop their team and arrange four minority events for vulnerable sections of the community.</li></ul>
<b>Estate transformation</b>	<ul style="list-style-type: none"><li>• During 2016 Southsea Fire Station will be developed to accommodate a Safer Neighbourhood Policing Team. The watches will integrate with the team and develop partnership incentives and initiatives.</li></ul>
<b>Training and development of our people</b>	<ul style="list-style-type: none"><li>• Teams will support the development of new equipment and fire fighting techniques whilst maintaining operational effectiveness.</li><li>• Each watch will arrange one group and two ship exercises.</li><li>• All watches will be trained by the Protection team to enable them to deliver low level fire safety audits in the built environment.</li><li>• We will develop a network of volunteers</li></ul>
