Enquiries to: Information Compliance Officer

### **Freedom of Information Act 2000**

Dear [REDACTED]

We are writing in respect of your application for the release of information held by the Service, which we received on 03 February. We can confirm that we have now completed our search for the information requested.

#### ***You asked:***

Please could you supply me details of incidents that the fire service have attended in 2023 with the following information

Date and Time of Call

Appliances Attended ( With the name of the station it came from )

Specialist Vehicles (HVP, EPU etc.)

Callsigns of each Appliances End Time (stood down)

Number of personnel on each vehicle

Type of Incident such as ( Fire's, Specialist Services and False Alarms )

Premises Type Outcome (Primary / Secondary)

What Equipment was used at Each Incident

Stop messages

Location of incident such as town, Postcode, Street name

#### **Our answer:**

We can confirm we hold the information requested, please find it attached.

We are refusing provide you with the postcode and street name of the incidents as per Section 40 of the Freedom of Information Act 2000. This is because it would enable the identification of individual. This would be unfair, within the meaning of the UK GDPR and Data Protection Act 2018, to release to the world at large in response to this request.

Additionally, where there were five or fewer crew that attended an incident, we are also refusing to provide you with the exact number for the reasons explained above. This is shown on the spreadsheet as '5 or less than' in the column 'Number of Crew'. For your awareness, there are a lot of entries with '0' in the column, this is because this information is not fully completed.

Regarding 'What Equipment was used at Each Incident' and 'Stop Messages', we are refusing to provide you with this as per Section 12 of the Freedom of Information Act 2000. To retrieve this information, it would require us to read message text for each incident and manually link this data. However, to assist you, we have supplied you with the column 'Firefighting Action Description' which gives details of the type of action taken and so gives an indication of the type of equipment used.

### **National Security**

Hampshire and Isle of Wight Fire and Rescue Service (HIWFRS) holds the callsigns and location of our vehicles. However, this information is exempt under section 24(1) National Security of the Freedom of Information Act 2000. Section 24(1) provides that information is exempt from Section 1(1)(b) if it is required for the purposes of safeguarding national security.

The national security exemption is based on the effect the disclosure would have, not on the content or source of the information.

As you may be aware, disclosure under the Freedom of Information Act is a release to the public at large. While we are not questioning the motives of the applicant, releasing our vehicles' registrations would enable the tracking and targeting of them to prevent us responding in the event of criminal/terrorist activity. This would increase the severity, impact and risk to lives in the event of an attack, would be to the detriment of providing an efficient emergency service and a failure in our duty of care to all members of the public.

### **Health and Safety**

Further, we are refusing to provide the location of our vehicles on the grounds that it would be likely to endanger the health and safety of individuals, as per sections 38(1) (a) and (b) of the Freedom of Information Act 2000.

While we are not questioning the motives of the applicant, a disclosure under the Freedom of Information Act is deemed to be to the world at large. This information can be used by criminals to target valuable equipment at stations for theft. This would lead to an increased risk to the safety of operational staff, staff from other agencies and other people who operate at, or are visiting the station. This would also have consequences for the public as it would impinge on our ability to respond to incidents.

### **Public Interest Test**

For these exemptions to apply, the public interest in maintaining these exemptions must outweigh the public interest in disclosing the information.

### **Public Interest for Disclosure**

There are several reasons in favour of disclosure to the public at large as follows:

- it promotes transparency, showing that we have appropriate vehicles/ capabilities to tackle incidents.
- there is a general interest in our vehicles which has been expressed by several members of the public.

### **Public Interest Against Disclosure**

There are also significant reasons why providing the information is not in the public interest as it may:

- it would be likely to endanger the safety of our staff in our vehicles and both staff and visitors to our stations were such an attack to take place.
- be used to facilitate and increase the effects of terrorist activities in our area and attacks on our vehicles and stations.
- lead to an increased risk of theft of equipment from our vehicles. This would negatively affect our ability to carry out our life-saving work and lead to increased public costs in replacing the equipment. This would not be an efficient use of taxpayer funds.

### **Conclusion**

Public safety and the ability to deliver an effective response to emergencies are of paramount importance to HIWFRS. Disclosing this information would be likely to compromise our ability to respond to criminal/terrorist activities and would endanger the health and safety of those at our stations. Therefore, we believe that the balance of public interest favours not disclosing this information.

The above concludes our investigation into this matter.

Any future correspondence with Hampshire and Isle of Wight Fire and Rescue Service in relation to this matter should be sent to the Information Compliance Officer at the above address.

If for whatever reason you are unhappy with our response you may request an internal review by contacting [DP@hantsfire.gov.uk](mailto:DP@hantsfire.gov.uk) or by writing to the Data Protection Officer at the above address.

Should you remain dissatisfied you can appeal against the internal review decision by contacting the Information Commissioners Office. This can be done online at [www.ico.org.uk/foicomplaints](http://www.ico.org.uk/foicomplaints) or by post to The Information Commissioner, Wycliffe House, Water Lane, Wilmslow SK9 5AF.

Yours sincerely

Information Compliance Officer  
Hampshire and Isle of Wight Fire and Rescue Service
